EDUCATION

University of Richmond	E.C. Glass High School
B.S. Biology and Journalism 2021-2025	Advanced diploma with Honors 2017-2021

EXPERIENCE

Summer Researcher

Dr. Jory Brinkerhoff / June 2023- July 2023

I completed research detailing parasitism rates between two Black-legged ticks lineages in Virginia on a common host species, mice.

Biology Teaching Assistant

University of Richmond / Aug. 2023-Dec. 2023

I set up lab materials and instruments for students, supervised lab, assisted with lessons, helped grade group projects, and helped clarify questions for students.

Summer Intern

Cardinal News / July 2023-Aug. 2023

Wrote stories detailing the spread of Alpha-Gal, an allergy to red meat, caused by the bite of a long star tick. Was featured on a Virginia-wide newsletter and on NPR.

Research Assistant

Dr. Jory Brinkerhoff/ Jan. 2022-Present

Completed research about parasitism behaviors, borrelia bacteria prevalence, and Black legged tick genetics.
